

Attention Aetna Patients:

Aetna Insurance has taken on multiple plans that we as providers unfortunately have not been notified of. Our Care for Women physicians are participating providers under Aetna but for a number of plans Kingwood Medical Center (also known as HCA) is not an in-network hospital.

Our physicians only deliver and perform in-patient surgeries at Kingwood Medical Center (HCA).

If you are coming in for a pregnancy or possible in-patient surgery please contact your Aetna insurance prior to your appointment to verify that Kingwood Medical Center (HCA) is an in-network hospital under your plan.

If your plan is under Aetna Whole Health or any other type of IPA (Independent Practice Association) we are not a participating provider therefore we would not accept your insurance.

For all school district employees, if you have selected a Limited Policy, we would not be able to treat you for your OB care. You must see a Memorial Hermann provider and deliver at a Memorial Herman Hospital. If you have chosen a Choice plan (Tier I/II) please contact Aetna to verify the benefit level for your physician and hospital.

If you are coming in for your initial OB appointment please contact your insurance company prior to your appointment to confirm that Kingwood Medical Center (HCA) is a participating facility under your plan. You must provide us with a reference number and name of the Aetna representative you spoke with prior to your appointment.

It is patient responsibility to know detailed benefits prior to your appointment. Benefits are not a guarantee of payment and claims are subject to review.

Thank you in advance for your cooperation.
